

Hawkes Information

Getting Started

- Hawkes is the platform where the eBook and HW system are
- **DO NOT BUY A PHYSICAL TEXTBOOK!!**
- Logon
 - ALWAYS sign on through Canvas, the 'Hawkes Single Sign On' link
 - This automatically links you to our course, no course code or anything needed
- Register
 - You have 21-days free trial access from your first logon
 - After that, it will cost \$?? dollars to register → LESS EXPENSIVE through Hawkes than the bookstore
 - You can purchase this **through Hawkes (this is the recommended way)** or the bookstore

3 Parts of Hawkes

Canvas Quizzes: Graded

Practice for HW: NOT Graded

Homework: Graded

Learn

- Learn is the online textbook
 - Learn screens are the eBook, just embedded into the specific lesson
 - Probably will take like 30ish minutes to read through (maybe like 10 or 15 pages)
 - There are videos going through examples and skill checks (quick questions)
- Canvas Quizzes
 - These are directly from Learn, it's like a note quiz
 - These are the prep before class
 - Grading
 - Get two attempts
 - Have to be done before the start of class on the respective due date
 - **These can't be done late, two lowest grades are dropped**

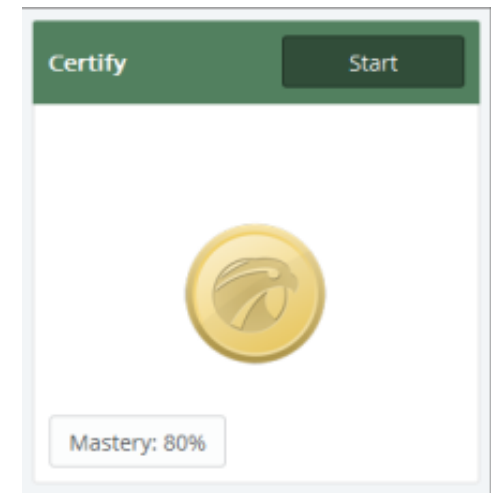

Practice

- Practice is a bunch of practice problems based on the lesson
 - Should spend most of the time on practice
 - NOT GRADED
- Questions
 - Can skip or try similar (new numbers)
 - Answers are checked automatically
 - Question help → If not sure how to do a question, you can click the 'Tutor' button
 - Gives you step-by-step guide or the solution
 - If you get a question wrong (which is okay!) → Can choose to have the error

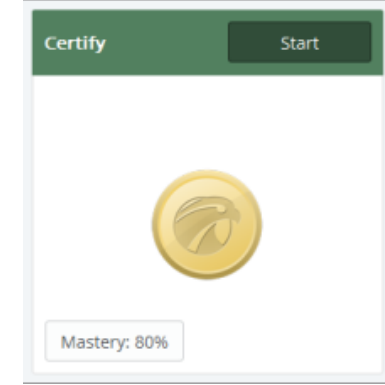

Certify

- Certify is the HW piece
 - It is the GRADED portion for HW
 - It is the same as Practice, but there is no learning aids (the tutor button and step-by-step guides)
 - This is why you should spend a lot of time of Practice!!
- Grade
 - Have to be done before the start of class on the respective due date
 - **NO GRADES are dropped.**

Certify – Grading

- Grading
 - You either get a 0% or a 100% (if late, the 100% is subject to the 25% reduction per 24 hours after the deadline → start of class on the due date)
 - The goal is to reach “Mastery” level, which is approximately 80% correct on the entire assignment
 - If achieved, you get a 100% on the assignment
 - Once you get to the 80% mastery level, you can continue to answer questions and you won’t be penalized
 - If NOT achieved, you can redo the certify as many times as desired in order to get mastery level
 - You have to restart the whole assignment
 - Lets say you skip the Practice and go straight to the Certify
 - If you do not achieve Mastery, you are forced to go back and do practice before you can attempt Certify again
 - **So don’t skip the Practice!**

Certify – Last Items

- Asking me questions
 - I will be less helpful on Certify
 - (If you have questions on this, then you need to practice more)
- Flex Strike
 - If you get a question wrong, you get one more attempt for the same type of question with different values
 - If wrong the second time, it stays incorrect
- Save and Exit
 - Can save and exit as many times as needed
 - When you come back, the question you were on will have new values
- **Do the Learn and Practice so you are ready for Certify!!!**
